## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-19 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter:

For claims 1, 11, and 17 the prior art of record does disclose a temperature sensing module as taught by Male, but there is no disclosure or suggestion to employ a temperature sensing module in the combination having the control module to selectively shunt the high and low side current based on the polarity and magnitude of the temperature sensor output voltage. The Male device is disclosed as a current sensor, but not in the protection art.

The art of record does not disclose or suggest the above claimed features, nor would it be obvious to modify the art of record so as to include either of the above limitations.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert T. Dang whose telephone number is 571-272-8326. The examiner can normally be reached on M-F, 9:30-6:30.
